### DISCLAIMER:

The estimates contained in this report were prepared using parcel information that was obtained from the King County Assessor's Office during the first week of November 2018 and uses an estimated tax rate and an estimated benefit charge. The actual tax rate and benefit charge that will be used to calculate the actual impacts will not be established until the budgeting process is completed in November 2019 and are dependent on the amount of the benefit charge. Using newer tax parcel or rate information for comparison may change the FBC relationship and accuracy of the estimate.

\*Note that parcels paying no tax under the proposed merger are not listed
