42 3. FBC (Fire Benefit Charge) overview: A presentation was provided reflecting the  
43 metrics used to calculate the charge, which included three key components; AV  
44 (Assessed Value), Square footage, and Fire flow. The FBC is voted on every 6  
45 years, and currently is on the third renewal since 2004. Sample formulas of  
46 residential and commercial properties from 2012 were shown, which captured the  
47 difference between the levy amount and actual taxes paid.  
48

49 4. Other Considerations: Topics discussed included; impact to ISO ratings, merger  
50 process, impacts to career and volunteer jobs, impacts to Commissioners, fire  
51 district debt affects, lessons learned from previous RFA elections, and maintaining  
52 an identity should a merger occur.  
53

54 Chief Clark provided an approximated time and cost to further pursue the financial  
55 benefits for D27 and the effects of a future FBC. All were in favor.
